

Future-Ready Educator Bootcamp: Exploring Industry 4.0

FREE

Lorain County Community College

SINCLAIR
Workforce Development

Why You Should Attend:

This boot camp caters to educators and administrators across all education levels who seek to deepen their understanding of Industry 4.0 and its classroom application.

Integrating Industry 4.0 concepts into the curriculum is essential for educators and administrators to equip students with the necessary skills for the evolving workforce, preparing them to thrive in a digital and automated world.

Throughout the program, participants will explore Industry 4.0 essentials, acquire basic robotic programming skills using CoderZ, and engage in hands-on activities highlighting automation and robotics principles.

***Teachers can earn 1 graduate credit from Ashland University at NO COST!*
